Training is an investment, not a cost.

We believe that when the right technologies are placed into the hands of confident and knowledgeable teachers, learning becomes inspirational and accessible for all. Investment in ongoing and measurable professional development is key to achieving positive transformation, both in and out of the classroom. If you do not want your technology investments sitting in a store cupboard then investment in teachers is essential.

That's where we come in...

We employ a team of expert trainers who are qualified teachers and certified Apple, Google and LEGO® Education trainers.

They provide expert training across the following technologies:

Apple - iPad and Mac

Google for Education

Google Apps for
Education and Chromebooks

LEGO® MINDSTORMS®
Education EV3 and WeDO 2.0

Adobe Creative Suite

Bespoke Specialist Training

We understand that every school has a different set of requirements for their training. Providing staff members with ongoing support is our number one priority and fitting the CPD into the school calendar is easy. Build your own Bespoke Training Package in just two simple steps.

Step 1

Choose your Training Structure

Twilight Training	Up to 3 hours of onsite training	£445
Half Day Training	Up to 4 hours of onsite training	£545
Full Day Training	6-8 hours of onsite training	£645
Termly Programme	3 full days of onsite training	£1935
Half Termly Programme	6 full days of onsite training	£3870
Bespoke Training Programme	Custom mix of training structures	£TBC

Step 2

Choose your Training Formats

(Fill your chosen Training Structure with the following training formats)

- **Teacher Workshops**
Pedagogical and Curriculum based workshops for teachers
- **Classroom Modelling and Team Teaching**
Example lessons for teachers to observe or co-teach utilising your technology in your classrooms with your pupils
- **Curriculum Planning**
Support with the development of long-term plans to effectively integrate your technology across the curriculum
- **Coaching and Mentoring**
1:1 training or small group training for teachers with personalised CPD objectives
- **Additional Training Opportunities**
Digital Leaders Programme, Accreditations, Adobe training and Subject Specific Training

To ensure continuity, where possible, you will be allocated a JTRS trainer who will work with you to plan, deliver and evaluate all the training you choose to invest in.

Additional Training Opportunities

Digital Leaders Programme

A Digital Leaders Programme is built specifically for pupils. Through project based sessions, children will engage with your technology and deepen their technological knowledge. We concentrate on four holistic skills (creativity, collaboration, presentation and innovation) and in doing so, the chosen children can actively advise their peers in the classroom. For more information on this Programme, please visit our Digital Leaders platform on our website ([LINK](#)).

Accreditations

We offer a wide range of technology specialist accreditation training for members of staff who wish to advance their skills even further. No matter the technology, we can guide you through an accreditation. **Training includes...**

- Google Educator Level 1
- Google Educator Level 2
- Apple Distinguished Educator

Adobe Training

For educators with specific Adobe software training needs, we offer CPD completely dedicated to Photoshop, Premiere, Dreamweaver, Lightroom and Music. The minimum training time needed for an Adobe course is one full day (6 hours).

Subject Focussed Training

Our experience in the classroom teaching across the key stages enables us to create high quality subject specific training. This is perfect for departments in Secondary school and or curriculum specialists in Primary. Subject focussed training offers a unique insight into subject specific applications as well as broader technology use that can enhance progression and bring lessons to life.

Apple Professional Development (APD)

TRAINING ACCESSIBLE TO ALL

Via the Apple Professional Development programme we are able to access funding from Apple based on quantity of iPad and Mac purchased. This funding can then be used to subsidise the cost of training. Some examples of how the APD scheme can support you to invest in high quality curriculum training for your staff is below:

For every 25 iPads, Macs or a combination of both purchased we are able to claim a £200 training rebate on your behalf

For every 50 iPads, Macs or a combination of both purchased we are able to claim a £400 training rebate on your behalf

The APD scheme includes devices purchased in a single transaction or accrued over a 6 month period.

Therefore a 30 iPad class set purchase would enable us to reduce the cost of a JTRS training solution by **£200**.

EXAMPLES:

	Full Day Workshop £645 - £200 =	£445
	Termly £1935 - £200 =	£1735
	Half Termly £3870 - £200 =	£3670

Please contact your JTRS account manager to find out more about APD and the bespoke training we could provide for your school.
